**PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134**

**1. BASIS OF PREPARATION**

This condensed consolidated interim financial statements (Condensed Report), other than for financial instruments and retirement benefit obligations, have been prepared under the historical cost convention. Certain financial instruments have been carried at fair value in accordance to Malaysian Financial Reporting Standard (MFRS) 139 *Financial Instruments: Recognition and Measurement*, and the retirement benefit obligations include actuarial gains and losses in accordance with MFRS 119 *Employee Benefits*.

This Condensed Report has also been prepared in accordance with the requirements of MFRS 134 *Interim Financial Reporting* and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

This Condensed Report should be read in conjunction with the audited financial statements for the financial year ended 31 December 2014. The explanatory notes attached to the Condensed Report provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2014.

**2. SIGNIFICANT ACCOUNTING POLICIES**

The accounting policies adopted in the preparation of the Condensed Report are consistent with those followed in the preparation of the Group's audited financial statements for the financial year ended 31 December 2014, except for the adoption of the Amendments and Annual Improvements to Standards effective as of 1 January 2015.

**2.1 Adoption of Amendments and Annual Improvements to Standards**

The Group has adopted the following Amendments and Annual Improvements to Standards, with a date of initial application of 1 January 2015.

Amendments to MFRS 119 *Employee Benefits - Defined Benefit Plans: Employee Contributions*  
Annual Improvements to MFRSs 2010 - 2012 Cycle  
Annual Improvements to MFRSs 2011 - 2013 Cycle

The adoption of the above pronouncements did not have any impact on the financial statements of the Group.

**2.2 Standards issued but not yet effective**

At the date of authorisation of the Condensed Report, the following Standards, Amendments and Annual Improvements to Standards were issued by the Malaysian Accounting Standards Board (MASB) but are not yet effective and have not been adopted by the Group:

**Effective for financial periods beginning on or after 1 January 2016**

MFRS 14 *Regulatory Deferral Accounts*  
Amendments to MFRS 11 *Joint Arrangements - Accounting for Acquisitions of Interests in Joint Operations*  
Amendments to MFRS 101 *Presentation of Financial Statements - Disclosure Initiative*  
Amendments to MFRS 127 *Consolidated and Separate Financial Statements - Equity Method in Separate Financial Statements*  
Amendments to MFRS 10 *Consolidated Financial Statements and MFRS 128 Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*  
Amendments to MFRS 116 *Property, Plant and Equipment and MFRS 138 Intangible Assets - Clarification of Acceptable Methods of Depreciation and Amortisation*

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134

2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

2.2 Standards issued but not yet effective (cont'd.)

**Effective for financial periods beginning on or after 1 January 2016 (cont'd.)**

Amendments to MFRS 116 Property, Plant and Equipment and MFRS 141 Agriculture - *Bearer Plants*  
Amendments to MFRS 10 Consolidated Financial Statements, MFRS 12 Disclosure of Interests in Other Entities and MFRS 128 Investments in Associates and Joint Ventures - *Investment Entities: Applying the Consolidation Exception*  
Annual Improvements to MFRSs 2012 - 2014 Cycle

**Effective for financial periods beginning on or after 1 January 2017**

MFRS 15 Revenue from Contracts with Customers

**Effective for financial periods beginning on or after 1 January 2018**

MFRS 9 Financial Instruments (International Financial Reporting Standards 9 Financial Instruments as issued by International Accounting Standards Board in July 2014)

The Group will adopt the above pronouncements when they become effective in the respective financial periods. The Group does not expect any material impact to the financial statements on the above pronouncements other than for the two Standards described below, for which the effects are still being assessed:

**(a) MFRS 15 Revenue from Contracts with Customers**

MFRS 15 *Revenue from Contracts with Customers* was issued in September 2014 and established a new five-step model which will apply to recognition of revenue arising from contracts with customers. Under this Standard, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The principle of this Standard is to provide a more structured approach to measuring and recognising revenue.

This Standard is applicable to all entities and will supersede all current revenue recognition requirements under MFRS. Either a full or modified retrospective application is required for annual periods beginning on or after 1 January 2017 with early adoption permitted.

**(b) MFRS 9 Financial Instruments**

In November 2014, the MASB issued the final version of MFRS 9 *Financial Instruments*, replacing MFRS 139. This Standard made changes to the requirements for classification and measurement, impairment, and hedge accounting of financial instruments. The adoption of this Standard will have an effect on the classification and measurement of the Group's financial assets, but no impact on the classification and measurement of the Group's financial liabilities.

MFRS 9 *Financial Instruments* also requires impairment assessments to be based on an expected loss model, replacing the MFRS 139 incurred loss model. Finally, MFRS 9 *Financial Instruments* aligns hedge accounting more closely with risk management, establishes a more principle-based approach to hedge accounting and addresses inconsistencies and weaknesses in the previous model.

This Standard will come into effect on or after 1 January 2018 with early adoption permitted. Retrospective application is required, but comparative information is not compulsory.

**PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134**

**20. FINANCIAL INSTRUMENTS (CONT'D.)**

**20.2 Fair Value**

**(a) Financial instruments that are carried at fair value**

AFS financial assets are measured at fair value at different measurement hierarchies (i.e. Level 1, 2 and 3). The hierarchies reflect the level of objectiveness of inputs used when measuring the fair value.

**(i) Level 1: Quoted prices (unadjusted) in active markets for identical assets**

Quoted equity is measured at Level 1. The fair value of quoted equity is determined directly by reference to its published market bid price as at 30 June 2015.

**(ii) Level 2: Inputs other than at quoted prices included within Level 1 that are observable for the assets, either directly (prices) or indirectly (derived from prices)**

Unquoted bonds are measured at Level 2. The fair value of unquoted bonds is determined by reference to the published market bid price of unquoted fixed income securities based on information provided by Bond Pricing Agency Malaysia Sdn Bhd.

**(iii) Level 3: Inputs for the assets that are not based on observable market data (unobservable inputs)**

The Group does not have any financial instruments measured at Level 3 as at 30 June 2015.

RM'000	Level 1	Level 2	Total
<b>AFS Financial Assets</b>			
Quoted equity	134,350	-	134,350
Unquoted bonds	-	84,984	84,984
	134,350	84,984	219,334

There were no transfers between Level 1 and Level 2 during the six months and quarter ended 30 June 2015.

**(b) Financial instruments that are not carried at fair value**

Financial instruments classified as loans and receivables and financial liabilities are carried at amortised cost.

The carrying amount of these financial instruments, other than staff loans receivable, are reasonable approximation of their fair values due to their short-term nature.

The carrying amount of staff loans receivable approximates its fair value, and is estimated by discounting the expected future cash flows using the current interest rates for loans with similar risk profiles. The staff loans receivable is measured at Level 3 under the measurement hierarchy.

#### **24. COMMENTARY ON PROSPECTS AND TARGETS**

The global growth outlook is expected to be challenging in 2015, which is lower than anticipated earlier this year. The International Monetary Fund has revised the global growth outlook to 3.3% from the earlier projected growth of 3.5% in 2015. Malaysia's economic growth on the other hand is expected to remain at 4.7%<sup>1</sup>, supported by Malaysia's investment activities in the export-oriented industries, the services sector and infrastructure projects.

The Securities Market performance is expected to be challenging as the market sentiment on the FBM KLCI remains soft with pressure building up on the weakening of Ringgit and expectation of lower corporate earnings. However, we expect this downside to be cushioned by ample domestic liquidity. Retail participation has remained consistent at 22% for the first half of 2015 whilst domestic institutions continued their participation, contributing 51% to the market. Crucial to the growth of our market in the current economy are our outreach activities as well as the ability to provide diversified and investable products to existing and potential investors.

On the Derivatives Market front, FCPO is expected to trade more actively with the demand and supply of CPO to be impacted by the B10 biodiesel regime being promoted by the Ministry of Plantation, Industries & Commodities, coupled with the hot El Nino weather pattern. The uncertainty in the FBM KLCI is expected to lead to higher activities in FKLI. The Derivatives Market is expected to benefit from the volatility of both palm oil prices and the FBM KLCI.

The introduction of tenor-based pricing earlier this year as well as the full implementation of Islamic Financial Services Act ("IFSA") 2013 are expected to underpin the demand for Murabaha products and hence, deepen the usage of Bursa Suq Al-Sila' (BSAS) in the domestic market. The Islamic Market is expected to sustain its performance as the need for Shariah compliant products will spur further demand from Islamic funds.

We maintain our focus on growing and developing our businesses and will continuously expand our reach in the marketplace notwithstanding the challenging outlook for the remaining period in 2015.
